3D Systems Showcases 3D Content-To-Print Solutions at RAPID

- Democratizing Access and Accelerating Adoption -

ROCK HILL, South Carolina, May 18, 2011 – 3D Systems (NASDAQ: TDSC), announced today that it will showcase its latest 3D content-to-print products and services at [RAPID 2011](#) May 24th – 26th at the Hyatt Regency hotel in Minneapolis, Minnesota, booth 311.

[3D Systems](#) will exhibit its entire line of personal printers including its sub \$4000 [Bits From Bytes 3D printer](#) and [RapMan 3D printer kits](#). The company plans to showcase its professional [3D printer](#) portfolio, including its new [ProJet™ 3000 plus](#) and its new [ProJet™ 6000](#), the first 3D printer 'crossover' to deliver real [SLA®](#) part performance. 3D Systems also plans to showcase its entire line of casting solutions including Voxeljet products and services based on its previously announced reselling arrangement.

"We are pleased to share our growing portfolio of products and services, with RAPID attendees," said Cathy Lewis, Vice President, Global Marketing for 3D Systems. "As we mark 25 years of innovation we are well positioned to accelerate adoption and democratize access to affordable [3D printers](#), compelling [3D content](#) and [on demand custom parts](#) services to a growing global customer base."

About 3D Systems Corporation

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials, creative printable content development, curation and downloads and on-demand custom parts services for professionals and consumers alike. Its expertly integrated rapid prototyping and manufacturing solutions reduce the time and cost of designing new products and printing real parts directly from digital input. These solutions are used to design, communicate, prototype and produce functional end-use parts empowering our customers to create with confidence.
