3D Systems Delivers Crystal Clear SLA® Print Material

- Accura[®] ClearVue[™] Offers Durability and Transparency -

ROCK HILL, South Carolina, November 21, 2011 – 3D Systems Corporation (NYSE:DDD) announced today the immediate availability of <u>Accura[®] ClearVue[™]</u>, a new durable, ultra clear print material with Polycarbonate and ABS properties for snap-fit applications. Accura[®] ClearVue[™] parts will be on display at EuroMold November 29th – December 2nd, 2011 in Hall 11, Booth F110.

Accura[®] ClearVue[™] is ideal for design, development and manufacture of automotive headlamp assemblies, bottles and containers, clear plastic consumer goods, light pipes and LED displays where exceptional clarity is critical. <u>Accura[®] ClearVue[™]</u> has also been shown to produce parts that meet the rigorous requirements of USP Class VI, further expanding the range of the company's <u>healthcare solutions</u>.

"We are pleased to deliver the benefits of Accura[®] ClearVue[™] to our customers," said Steve Hanna, Director Global Sales and Marketing Materials, 3D Systems. "Accura[®] ClearVue[™] is an excellent choice for a growing number of snap-fit and medical applications that require precise, accurate, durable and transparent parts and models."

About 3D Systems Corporation

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides creative content development, design productivity

tools and curation services and downloads. Its expertly integrated solutions replace, displace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, communicate, prototype and produce functional parts, empowering its customers to create with confidence.
